## PATTERN DIRECTED INFORMATION ANALYSIS

New Age International (P) Limited, 2008. Hardcover. Book Condition: New. First edition. Artificial Intelligence (AI) began the quest to create machines that are intelligent enough not to only think for themselves like humans, but also, to out-perform them, that was the holy grail of machine intelligence. Pattern Directed Information Analysis and understanding constitutes the core function of non-numerical data processing capability for interactive intelligent human-machine interface in natural mode of communication that constitutes the main architectural sub-system of the Knowledge Based Computing System. The units I and II of the book contains the current trends of research and development in algorithms and architectures for Pattern Directed Information Analysis, and units III, IV and V concern with the problems and prospects of real life applications. Faculty Members of both Undergraduate and Graduate studies and Research Scientists will be very much benefited as several renowned authors have indicated the limitations of different concepts and technologies and need for further R & D to achieve break-through in some fields. Printed Pages: 496.
