Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from *The War With Germany: A Statistical Summary* Sir: Now that the negotiations of the peace commission are drawing to a close there is general desire for a stock-taking of the efforts made and the results achieved by the United States in the war. In addition to the other reports being prepared by the different divisions of the War Department there is need for a statement which shall set forth the significant facts and figures with respect to those major steps in our military preparation and action which, taken together, constitute the record of our participation in the war. These main steps are not difficult to distinguish from the innumerable details connected with them. They include such major enterprises as raising the men, training them, transporting them overseas, furnishing small arms, artillery, and airplanes, conducting battle operations, and caring for the sick and wounded. It is important that there should be available at an early date an authoritative account giving the important facts about these consecutive operations of the war so that the more detailed reports that are beginning to appear may be judged in their proper setting and perspective. For these reasons I wish you would have prepared as promptly as possible a brief and simple statistical report showing what was accomplished by the department and the cooperating agencies during the war. Very truly, yours, Newton D. Baker, Secretary of War. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
