OPTIMIZATION METHODS IN ELECTROMAGNETIC RADIATION

Berlin Springer. Buch. Book Condition: Neu. 23.5x15.5x cm. Neuware - This book considers problems of optimization arising in the design of electromagnetic radiators and receivers, presenting a systematic general theory applicable to a wide class of structures. The theory is illustrated with examples, and indications of how the results can be applied to more complicated structures. The final chapter introduces techniques from multicriteria optimization in antenna design. References to mathematics and engineering literature guide readers through the necessary mathematical background....

Reviews

This book is indeed gripping and exciting. it had been writtern really perfectly and useful. Its been written in an remarkably basic way and is particularly only following i finished reading through this ebook through which in fact changed me, affect the way i think.

-- **Royce Heathcote**

Great e book and useful one. Of course, it really is engage in, continue to an amazing and interesting literature. You wont sense monotony at anytime of your time (that's what catalogues are for regarding if you request me).

-- **Prof. Flavie Moore Jr.**
