By Eugene Howard Harper

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Fertilization and Early Development of the Pigeon s Egg: A Dissertation Submitted to the Faculties of the Graduate Schools of Arts, Literature, and Science, in Candidacy for the Degree of Doctor of Philosophy; Zoology About the early development of the large meroblastic eggs comparatively little is known. This has remained true in spite of the thoroughness with which the embryonic stages of selachian and chick have been studied. As a result of the work of a number of investigators, chiefly Biickert, there is now a fairly complete general survey of the fertilization and early stages of the selachian egg. Observations upon the early development of the birds egg are very few. Some of the early cleavage stages of the chick were figured by Coste, and Balfour contributed some observations. The internal phenomena of the egg during maturation, fertilization and early cleavage have remained an open field for investigation. Upon the ovarian history of the bird? egg observations have been quite numerous. The paper of Holl, 90, upon the hen s egg may be mentioned...
